PORG OSTRAVA
BILINGUAL KINDERGARTEN

" My Family and I"

Dear Parents and Children,

May was full of love and many parties. At the beginning of May, we celebrated King Charles lll. Coronation with Street Party in the PORG garden. We were lucky with the weather and had a chance to cross the Abbey Road, taste traditional British cuisine and meet Mr. Bean and Gruffalo. We had the greatest British hits playing in the background. In addition to the harmonious atmosphere, the children made lovely cards for their dearest mummies to express how much they love them. In preparation for the sunny and warm summer, the children put on their swimming gear and had lessons in Brušperk Swimming Pool. All our PORG mermaids and mermen did a good Job! Warmest regards to all the children who celebrated their birthdays with us in May.

As we approach the end of the school year, we would like to show our appreciation to the children, we value their growth and achievements these past months.

"Be bold, be courageous, be your best!"

Graduation Video Making

A Glance Into Our Classrooms:

Goals:

- Allow the children to express their feelings and emotions in relation to family.
- To understand the meaning of the family, and importance to be a member
- To learn various professions/community helpers,
- To develop English communication skills and ability to use adjectives.
- Acquire knowledge on the internationally celebration in the month of May “Mother’s Day.”

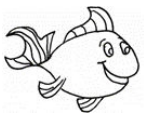

Little Tigers

Art/ Craft: *Our crafts this month were:*

- “Royal Crown” – craft
- “Mother’s Day Card”- craft”
- “Chef’s Hat” – craft

“Be bold, be courageous, be your best!”

Knowledge: Children have learnt the topic of family members/relations and professions this month. They tried to make the family tree, relations in it and characterization of their mums. They practiced the development of their language skills in describing these topics. In the second topic, children learnt to name different professions around them, the meaning of community helpers. We also discussed children's future jobs. At the end, they became chefs andmade their own fruit salad. We also had a chance to review and recognize numbers (1-12 and greater) numbers, identify and name shapes, sounds recognition and colors (light×dark).

Jolly Phonics: Children finished the 7thth group. Reception children practiced and developed their handwriting in Jolly Phonics Worksheets. Left to Right practice writing to the sand. They practised to recognize sounds in family members and professions vocabulary. Younger groups also practiced and developed their fine gross motor skills and knowledge in activities, games supported with Jolly Phonics Learning. They practiced the right pronunciation and developed their vocabulary. They watched Alpha blocks videos to practice sounds and worked with Jolly Phonics Classroom, Jolly Phonics App.

Knowledge:

The children practiced further with bee-bots at the start of the month and took another step toward analytical thinking and planning. They acquired knowledge regarding their family members, especially their loving mothers. Also, they got accustomed to different professions and expressed their dreams of the feature which inspires them. Community helpers were in the first place of preferences. They practiced their listening and speaking skills by investigating rhyming words. Finally, they continued developing their mathematical thinking on the number range 0-20 and compared sizes.

Jolly Phonics:

The children started the 7th group of sounds and continued expanding their pre-reading and phonic skills. Reception children practiced and developed their handwriting in Jolly Phonics worksheets. They also practiced blending and segmenting words and observed the first and last sound in a short word. Younger groups developed their fine and gross motor skills in games supported with Jolly Phonics Learning. Alpha blocks videos were watched, and we sang Jolly songs to improve pronunciation.
