

# WELCOME TO OUR KINDERGARTEN

Little Fish

Little Tigers

Dear Parents and Children,

The wonderful autumn time has already begun, and we present our October newsletter to highlight the precious moments of the past month. First, we had the Dental Program to teach us how to take better care of our teeth and keep them healthy and strong. This was followed by a visit to see the primary school kids perform the famous "Haka" dance. We felt as if we were in Australia as well. On October 20th, the kids indulged in a pottery session in the Little Tigers classroom. The results of their creativity were astonishing. They worked with clay, had fun, and made such lovely creations. During this bright and colorful month, we all enjoyed some sunny and hot days outside before cold and foggy days approached. Last week our kindergarteners had their autumn break and enjoyed a week off. We hope everyone had a great time relaxing! On October 31st, PORG Kindergarten turned spooky as we celebrated Halloween. We all got to enjoy a spooky fiesta with dancing, playing funny games, and decorating gingerbread cookies. Yummy, yummy! Then, we went trick-or-treating to the Little Birdies, where the traditional costumes parade was held. How many cute witches, spooky skeletons, monsters and more came on that day!

# DENTAL CARE

We learned the importance of keeping our teeth clean, the teeth “friendly” foods and drinks and of course, the art of brushing effectively!

Fish, no bubbles while washing!

Tigers should take care of their sharp teeth!

# WELCOME MR OTTO

Starting this month, Mr Otto, our physics teacher visited both class with his amazing equipment and exposive experiments. We will look forward to him next month to enter the magic world of the laws of physics.

# HALLOWEEN

Halloween was a real blast! We got so scared but managed walking through the International School's spooky basement! Mr Matt and Fish class mixed a potion with VERY interesting ingredients, and we got to decorate tasty Halloween-shaped gingerbread cookies. And don't get us started on the amazing candy our amazing parents brought. We were all drooling!

Gingerbread decoration!

A boy and a girl were among this potion's ingredients...!

All that candy and not enough time to eat it!

# A GLANCE INTO OUR CLASSROOMS

**KNOWLEDGE**

This month we focused on season autumn. We learnt to notice the changes in nature, the colors, the tree life cycle and the weather. We learned the other seasons in the year, and practiced which months autumn is composed of. Along this procedure of knowing about autumn, we used all our senses and encountered natural elements we can find and see around us. The children were also encouraged to understand better spoken and read words and answer questions. We learnt the basic shapes and started experimenting with them with our bodies and on paper. We finally improved our fine and gross motor skills further in the classroom, the garden and the gym.

**JOLLY PHONICS**

Children have finished the 2nd group of sounds in Jolly Phonics. They were learning the sound of a scared and naughty mouse squeaking "i, i, i!!". Then, they were introduced to a party in which they had to puff strongly to burn out the candles of the cake. Finally, we were imitating an airplane's sound stretching our hands and doing "nnnnnn!".We also sang Jolly songs of each sound and learnt vocabulary. Reception children started to write the sounds according to the writing rules. The younger group focused on the development of fine motor skills in tracing or coloring. Children also work with Jolly Classroom program for developing their skills.

# A TASTE OF OUR LEARNING EXPERIENCE

## CRAFTS

### Tigers

- Podzimní strom
- Obtisky listy
- Scarecrow
- Ghosts
- Mummy

### Fish

- Strom ročních období
- Slaný Halloween
- Houby
- Tree-paint+ Leaf print

## SONGS AND RHYMES
