

WELCOME TO OUR KINDERGARTEN

Dear Parents and Children,

March has brought many wonderful events and a lot of sunshine. Children were exploring the world of **fairy tales and books** this month.

At the beginning of March, we had another amazing **Music Workshop** for both classes. The children absolutely enjoyed it. They were playing Orff's instruments, learning beats and having fun. We also had teachers clapping their hands to the beats and the rhythm of the music. There was one week of spring holiday and Easter holiday at the end of March. We hope you spent a wonderful time, relaxed and enjoyed the first sunny days of spring.

On 21st March, we all unlocked our garden and welcomed spring to its reign. Our **"Welcome Spring!" party** officially began with the lovely performances of our PORG children. Then, together with the parents, all the children headed out to the beautifully decorated **garden** with birds that they had made during the Art/Craft lesson. Accompanying the celebrations, was a **tasty bouffet**, thanks to our skillful teachers. We were delighted to see you and have a chat with you!

On the 27th April, the oldest Tigers and Fish went for a visit to the 1st grade class at PORG primary to see what their **new life in school** would be like. They were all well-behaved and enthusiastic about their future. Finally, we could not go without the popular **Easter Egg Hunt**. Our Easter Bunny came to hide some chocolate eggs for our great children.

Happy Easter!

WELCOME SPRING, TO WARM OUR HEARTS!

We summoned spring
with our hard work and voices,
hoping for its return this year,
and it seems
like our efforts paid off!

Creating colorful decorations, for our garden, setting out bird food, performing for our loved ones, and lastly, indulging in a well-deserved meal and drinks, all while enjoying the company of friends and having fun!

THE MAGIC OF MUSIC

We prepped our voices and bodies just like professional musicians, uniting as a musical band and blending together an incredible musical masterpiece soup!
Once more, we express our gratitude to you, Ms. Čenohorská.

HAPPY BIRTHDAY BOYS!

SCHOOL BELL RINGING!

With springtime coming, Porgino's second term finished. This was celebrated by our preschoolers with a small feast and bells ringing to wake the birds up.
Our schoolers-to-be liked it so much, that they visited the primary school's classroom for a full lesson!

A GLANCE INTO OUR CLASSROOMS

EDUCATIONAL OBJECTIVES:

- Develop pre-mathematical skills – first, last, second third; geometric shapes; number series 1 - 6.
- Familiarize with classic fairy tales, understand the principles of good, evil and moral value.
- Improve English communication skills by learning vocabulary regarding fairytales and their main characters.
- Get to know the Easter holiday and its traditions.
- Develop right-left orientation.

In JOLLY PHONICS this month:

We continued practicing double sounds working on the 4th book. In particular, we:

- Checked our mouths and bodies while trying to reproduce the sound “j,j,j” and transfering a tray of jelly around. Yummy!
- Introduced the sound "oa" by examining a story where we learned lots of words including this sound and remembering some we already knew: boat, oak, goat, coat.

A TASTE OF OUR LEARNING EXPERIENCE
