

WELCOME TO OUR KINDERGARTEN

Dear Parents and Children,

Following the successful Welcome Spring Party, we were observing and admiring springtime that brought many nice moments.
April weather was a good example of its meaning, Children could feel the rapid weather and temperature changes on their skins. Focused on learning **spring in nature**, children enjoyed their participation in **gardening** a lot.
Altogether, we planted pumpkin seeds, raspberries, blackberries, and blueberries to join in the celebration of Earth Day. Anyway, wish us luck because Little Gardeners deserve it.

Also, many interesting events took place in April. Let's run them through!
On the 3rd of April, **Easter traditions**. Mrs. Šeflová came to discuss Easter traditions and customs with our reception children. They got to know a lot of interesting things and had fun. What an interesting discussion!
On the 22nd April, **Earth Day** and **English Workshop** with Mr. Matt. On that day, many nice activities were prepared for children to celebrate Earth Day. They were gathering garbage in the garden and sorted them out into the right bins of blue, green, and yellow colors. Then, we were invited by Mr. Matt to see a known **fairytale "Goldilocks"** performed by pupils from the 4th grade.
On the 25th of April, **experiments with Mr. Otto**. This time, we got acquainted with liquid nitrogen and its functions. Wow!
On the 29th of April-3rd of May, **Inline skating course** was held for older children. Weather was great and all of them did a good job. What fun we had!

In conclusion, our sincere **congratulations to our reception kids on their school enrollment**! We are so proud of you.

THEY SEE US ROLLING...

The course started smoothly
on the grass!

Transitioning from tough terrain
was like a ninja obstacle course
for the kids,
but touchdown
on the smooth pavement
was a breeze!

Ultimately, we mastered the challenging asphalt,
learned the art of falling, and, of course, how to skate!

GREEN THUMBS....UP!

This season has arrived, prompting us to “spring” into action!

Our versatile assistant, Monika, excelled at planting berry bushes.

Her success wouldn't have been possible without the invaluable assistance of our little helpers, little Tigers and Fish.

ENGLISH THEATRE TIME!

“Goldilocks and the three bears” from 4th grade had us all excited.

The actors gave their best, we couldn’t take our eyes off them!

We were also speechless by the rich setting. Amazing work children and Mr Matt!

CHEMICAL REACTIONS ROCK!

Otto made a surprising return, bringing excitement with chemical mixtures, fire, smoking potions, and overflowing liquids – just the start of the thrill!
Now, the decision lies ahead: Will you go for liquid fire or a smoking purple iodine potion?

A GLANCE INTO OUR CLASSROOMS

Educational Goals:

- Understanding spring, including its characteristics and features
- Enhancing observation skills to notice and understand nature's changes
- Observing the birth of new life and learning about the young of animals
- Focusing on environmental and ecological principles
- Exploring spatial prepositions
- Improving communication skills and fostering teamwork

In JOLLY PHONICS this month:

We started and completed the 5th group of sounds, deepening our knowledge of double sounds:

- Learned the sounds “w” and “v” and how to tell them apart and use them correctly.
- Lifted some weight while learning how to strain ourselves, producing the sound “ng”.
- Learned that in english doudle “o” is proffered “u” and can be short or long. A cuckoo clock helped us with that: “oo-oooo”
- We buzzed as buzzing bees, writing the letter “z” and learning words like: zip, zoo and zebra.

A TASTE OF OUR LEARNING EXPERIENCE

Tigers
Songs: "This is the beehive", "Šel zahradník do zahrady", "Šla nanynka do zelí"
Rhymes: "Yellow Daffodil","I am a little honeybee","This is big, this is small","Zlatá brána", "Uvijíme věneček"

Fish
Songs: "EARTH day song", "Millipede March","Ospalá sněženka", "Krávy, krávy", lidové písničky
Rhymes:,
"Bugs and insects", "Zemička kulatá", "Dešťové kapičky"

ARTS & CRAFTS

SONGS AND RHYMES

Tigers
Bee Straw
Spring Meadow
Tulipán
Společný jarní obraz

Fish
Earth day Flower
Wooden Bees
Zajíčci
Tulipány vidličkou
Slunečnice se semínky
Kreslení hlínou

ART AND CRAFTS

Busy fingers, happy faces!

Look at our twirling earth craft!

Stems and colorful tulips! We're in!

Painting with a fork is fun!

JOLLYPHONICS TIME

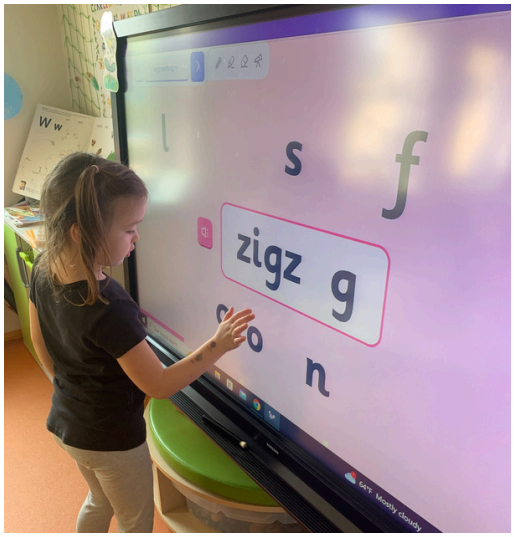

Being STRONG is our priority!

The w-w-wind was blowing strong!

Z-a-g...and we can from a word!

We are driving our v-v-van carefully!
