

WELCOME TO OUR KINDERGARTEN

Dear Parents and Children,

The final newsletter of this school year is here. Let's look back at the magical moments we had in June. On the 1st of June, our kindergartners celebrated **Children's Day** with a funny morning and ice lollies in their hands. It was such a joy to see their sparkling eyes as they got to enjoy playtime with their friends.

In addition, on the 6th of June, the magnificent **Graduation** was held in our PORG garden. It was a really unforgettable party and no eye stayed dry on that day!

As usual for the end of the school year, PORG Ostrava once again hosted the traditional **Summer Party themed "Travel Around the World"**. The Little Tigers and Little Fish showed their amazing dancing skills on stage. This time the Little Tigers performed a Hawaiian dance and the Little Fish danced on the wave of African music. "What a great party!"

Finally, to the 2024 graduates, we would like to wish you all the best! You will always be part of our memories. Thank you also to the wonderful parents for your support and cooperation throughout the year.

"School's out, summer is in!"

WE ARE DOLPHINS, MERMAIDS AND FISH !

Our swimming lessons took off also in June. Our skillful swimmers had many tasks to fulfill in the water, and they managed it with flying colors. Their reward and bonus were worth it. We slid down the water slide, played under the fountain, and look forward to our next meeting with the magic and fun of water!

BLASTING CHILDRENS' DAY!

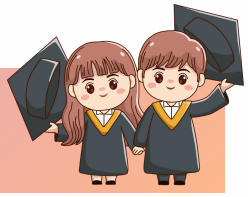

On Children's Day, we boogied in the rain, hopped between two playgrounds, and savored popsicles. The fun was so contagious, you could practically see our smiles from space!

GOODBYE, AMAZING GRADUATES

Opera singing, flute, and piano accompanied our graduates on their final ceremony before going off to primary school. Many thanks to everyone who helped us, but mainly congratulations to those amazing children!

Happy Graduation!

DANCE THE SUMMER AWAY!

For the final farewell before summer holidays, we put on our hawaiian leis and African attire and danced with our souls and bodies. There was an amazing performance made by young and older students, and it was a great joy to be a part of it!

A GLANCE INTO OUR CLASSROOMS

Educational Goals:

- Learn about the means of transport and their categorization: air, land, water
- Excericse how to orientate and the basic rules of transportation.
- Gain knowledge about the continents, their names and characteristic animals, sights.
- Talk about summer. Activities, plans, clothing and toys that fit on the season.

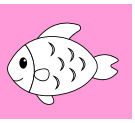

In JOLLY PHONICS this month:

We started and completed the 7th group of sounds:

- Learned the sound “ou” when something hurts us and other words like: shout, loud and mouth.
- Practiced the sounds “er” and “ar” and sorting words to the sound they include.
- Used the sound “oi” to call for someone and enrich our vocabularies with words that include it such as: oil, coin, boil

A TASTE OF OUR LEARNING EXPERIENCE
