# Navigating the Political Climate

Our environment isn't the only climate that is heating up.

The political climate all around the world is too.

Are you interested in  politics? Do you like debating? If so, join Mr. Hudson as we explore the political climate of different countries (with a particular emphasis on the English-speaking world). Get ready to show off your knowledge of politics, and maybe even your acting skills too, as we take the temperature of the world of politics and step into the shoes of some world leaders. We will learn about some basic political terms in full, examine how politics shapes the past, present, and future in different countries, and take part in a mock debate.
