OCTOBER 2024

AUTUMN IS HERE

Dear parents, we are excited to share with you the wonderful experiences from our recent events and activities of the past month.

It was a pleasure to see so many of you join us for an afternoon full of autumn fun and pumpkin carving.

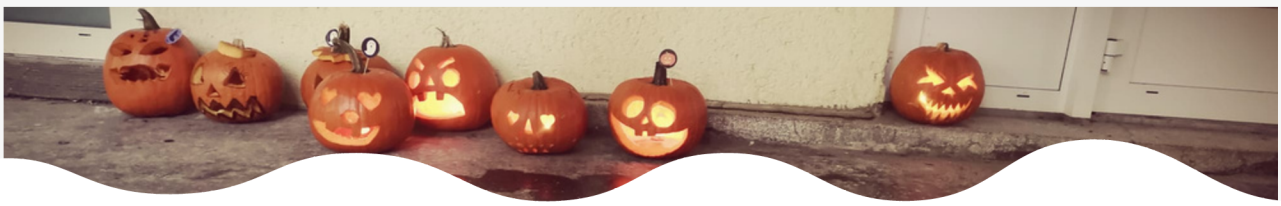

Using pumpkins and a variety of provided fall materials, parents and children worked together in our outdoor workshop to create some fantastic pumpkin carvings.

We loved seeing the unique designs that each family contributed. Many of these beautifully carved pumpkins now adorn the entrance to our school and add a festive touch to our neighborhood. All you have to do is arrive at the preschool after dark and the pumpkins will lead you to us.
Thank you to all the parents and children who participated and we look forward to more memories and events together.

SCIENCE SHOW

We recently had the pleasure of hosting an exciting science show in our kindergarten, presented by a scientist from Masaryk University.

The children were captivated as they explored fascinating scientific concepts through engaging demonstrations, including:

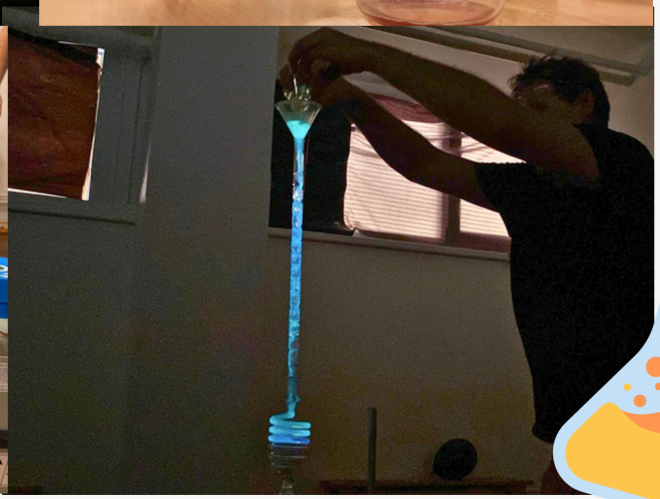

- Mixing acidic and alkaline solutions
- Observing luminescence
- Discovering fluorescence
- Watching CO_2 blow up balloons
- Experiencing CO_2 bubbles from dry ice reactions

The children thoroughly enjoyed the hands-on activities and were thrilled to see science in action.

FARM

On a lovely day, we had an exciting trip to the U Tří Koníků Farm.
The children from Little frogs class thoroughly enjoyed exploring the countryside, learning about farm life, meeting the animals, and discovering the inner workings of a farm. They also took part in activities that brought them closer to nature.
This visit was an inspiring, offering the children a chance to connect with the environment in a meaningful way.

“OVOCE”

“DUŠIČKY”

INSIDE A CARE HOME

For the elderly residents, interacting with the kids is a jolt back to the world of the living.

> LETS PLAY A GAME

HAPPY BIRTHDAY EVERYONE!

MORAVIAN GALLERY

The kids from Little Bees class visited

The Moravian Gallery in Brno with the engaging children's programme *Out of the Blue*. It let their imagination run wild for a while.

They strolled through clouds of different shapes, sparking ideas and dreams.

What did they see? A caterpillar, a balloon, or perhaps something entirely new?

Alongside enjoying the magical atmosphere, the children had a chance to create something uniquely their own.

APPLES BIG, APPLES SMALL. GUESS WHAT?

Autumn has arrived, and with it, we held a festive Apple celebration with the children from the Little Mice class.

Together, we baked delicious apple treats and even made fresh apple juice.

I LIKE THEM ALL.
