

Dear Parents and Children,

November is over and the third newsletter is here again. November has brought many new changes in the nature and fun events. This month children observed birds' migration and animals' preparation for winter. The November weather varied, some days sunny, windy, and snowy. The children enjoyed the snow day in our garden by making snow angels and building the snowmen.

In November, we had the parents' meetings for all our three classes, where you received update on the progress and wellbeing of your kind children, as well as receiving some feedback from your side. It was pleasure to for us to get together during the meeting.

Our events this month included the Ceramics Workshop with Mrs. Batko. This time our Little Tigers, Little Fish and Puffy Clouds made the Christmas trees and ornaments which were sold at the Christmas Market.

In another birthday celebration, we hosted Hopsalín the Clown on the November 21. The children grow up so fast and we were happy to celebrate Valentinka's already 5th Birthday with her. Thank you so much to Valentina's parents.

On the 26th, we had the Flower Workshop. We are grateful to the mom and grandma duo who demonstrated to us how to make lovely flowers. It was a lovely experience for us all as we learnt how to create paper flowers especially made with care for the PORG choir that will be performing on 5th December in the church.

On 28th November, we hope you enjoyed the traditional lighting of the PORG Christmas Tree. The event was together with the Christmas Market, which offered delightful treats and hot drinks. In addition, there were stalls to buy handmade gifts at the market, made by our children's crafty hands.

Ceramics workshop

... or how to make something beautiful, exercise your fingers, and improve fine motor skills, calm down, and relax. Simply art therapy and at the same time a little gift for mom... or maybe for dad :-)?

Flower Workshop

As you can see, nobody is bored here! We still have our hans full of work :-). Work? Acttually, creativity and fun! ... and all beautiful things, whatever you want :-).

It's here! Snowflakes!

"Yahooo ... everyone rejoiced, but the greatest joy had the children. A snowball fight, the first little angels in the snow, and a secret taste of snow :-) We haven't built a snowman yet, but so much joy and so many smiles, nothing else could create that.
