SPRING HAS SPRUNG

Welcome Spring at Our Kindergarten!

Spring is here, and with it, a season full of exciting activities.
In Žabičky (Little Frogs Class), the children have been planting and tracking the growth of their plants, visited a butterfly house, baked rolls with Chleba Brno, and even made their own pizzas at La Corrida.

In Sovičky (Little Owls Class), the children made pancakes with Mr. Relich, explored VIDA! Science Center, and enjoyed an art workshop focused on color mixing. They also had their final swimming lesson and had the joy of listening to stories from grandparents, who came to share fairy tales with the children.

Včeličky (Little Bees Class) participated in music therapy, joined the Science Cup, visited Vida! Science Center and planted flowers to celebrate the arrival of spring.

Meanwhile, Myšičky (Little Mice Class) had therapy with dogs, learned about spring babies and flowers, and took part in a creative art workshop.

It's been a fun and colorful start to the season, and we're excited for the adventures that are yet to come!

THE VERY HUNGRY CATERPILLAR

Little Mice had a wonderful experience with the book The Very Hungry Caterpillar. Through this beloved story, they discovered the transformation of a caterpillar into a butterfly.

CHARITY ART EXHIBITION

On Thursday, March 27th, our children visited a special charity art exhibition organized by our teacher, Gabriela Vávrů.
Great news - Thanks to your support, we raised an amazing 13,670 Kč, which has already been donated.
Every artwork created by our young artists carried a message of love and support for the abandoned animals at the TIBET shelter.
A big thank you to the children for their wonderful artwork, to you, dear parents, for your support, and to everyone who took part. It was heartwarming to see the children's creativity bring so much joy.
Special thanks to teacher Gabča for making this event possible.

ART SPARKS

All classes had the opportunity to join an art workshop led by Mgr. Kuklíková from ZUŠ, exploring the magic of color mixing.

VIDA SCIENCE CENTER

Our children visited the VIDA! Science Center, where we participated in the fascinating educational program Dance of Colors. The children explored the magic of colors and shapes, discovering what happens when they mix together, and eagerly watched incredible experiments
