MARCH 2025

Dear Parents and Children,

March was full of exciting and educational activities for our little ones! Here's a recap of what we enjoyed this month:

We kicked off Month of Books with a visit to the PORG Library, where Mrs. Jana Vidmochová read captivating fairy tales. The children also had fun dancing to Před dubem, za dubem.

Little Tigers and Little Fish went on an excursion to the Vítkovice Library where they explored emotions in the Colorful Monster program, while Puffy Clouds took part in the Chameleon program. What fun we had!

A nurse visited us and introduced the basics of first aid to the children. Children had a chance to bandage their friends to save their lives. At the end, they learnt a delightful rhyme about vegetables and their importance for the human body.

Mr. Otto invited us to the Science Lab, where we experimented with gases and fire. What a fascinating experience! We look forward to another experiment with Mr. Otto.

Puffy Clouds enjoyed a wonderful performance of A Christmas Carol, performed by PORG primary pupils. Many thanks for such a great performance.

Little Tigers joined the Montessori Lab program at DOV. Before the program started, they enjoyed themselves in the playroom. During the program, the children also made a magical potion for good mood. And it worked!

As part of the Children to Children project, students from PORG Grammar School read fairy tales to our little ones before naptime, helping them drift off into sweet dreams.

We also celebrated the birthdays of Adámek H., Davídek, Melanie, and Charlotte. Happy birthday to them! 🎉

Thank you for being part of another wonderful month. We look forward to more fun in April!

Visiting the school library

March is the month of books! So in this month, we visited two libraries with the children. We started at our school library, where the children had the chance not only to browse through books but also to listen to several traditional Czech fairy tales performed by our teacher Jana. At the end, everyone danced to a cheerful song ”Před dubem, za dubem”. It was a huge fun, and the children truly enjoyed it!

Nurse at the kindergarten

And because health and taking care of our bodies is very important, we invited a nurse to help us, who cheerfully taught the children about it, while they also had a lot of fun. Don’t you think there are a lot of patients in these photos?

Students read to children

Just like every day, in March we read a fairy tale to the children during their afternoon rest, but this time we had helpers from the school. Every Tuesday, students from the school came to read the children a sweet bedtime story. Some read “Maková panenka a motýl Emanuel” others read “Rumcajs a Manka” or “Povídání o pejskovi a kočičce”. Thank you dear students :-).

Science laboratory with Mr. Otto

There were moments when everyone was holding their breath, some couldn’t believe their own eyes! That’s exactly how it looked, with lots of chemical experiments, magic and miracles, colors, smoke, flying objects, and fire, all performed by Mr. Otto. No one wanted the fun to end , on the contrary, everyone wished to be a little chemist.

Visiting the city library

And here is a short view of the city library in Vítkovice, where Little Tigers and Little Fish took part in the educational program "The Color Monster," based on the book of the same name. We read through the book, then discussed the colors and emotions the monster experiences. The children were very engaged by the book, enjoyed talking about different emotions, and created their own colorful monster, while Puffy Clouds took part in the Chameleon Leon program.

Little tigers at DOV

The children from the Little Tigers class in DOV had a fun yet very educational morning. Some played in the water play area, others pretended to be chefs or builders. But then, everyone eagerly joined in the educational program “Montessori Laboratory”, where they worked in the Montessori style.

Student Performance

This time, the class of Puffy clouds went to the school for a cultural experience. They attended a lovely theater performance called Christmas Carol, led by Mr. Matt. Bravo, Master! The children were thrilled, and we take our hats off to you

Happy Birthday

Little Tigers
