

# Beauty of May 2025

“May is the month of expectation, the month of wishes, the month of hope.” While it’s often seen as the bridge to summer, May has its own sunny story to tell — and we’ve been listening.

Mother’s Day was a beautiful moment when the children prepared heartfelt gifts for their kind mommies. Each present, crafted with care and love, expressed admiration and tenderness. We spent a week roller skating at Ferona, enjoying the movement and fun together. Rainy days didn’t stop our energy — we stayed active and happy while training in the gym. At the end of the month, the children began their swimming course in Brušperk, jumping into a new challenge with excitement. We also had the joy of celebrating the birthdays of Helenka, Klaudinka, Neri, Nella, Eda, Rolf and Samík Bukowski.

Special thanks and appreciation go to Mr. Matt and his lovely wife for preparing such a celebration filled with beautiful, hand-drawn decorations, and adventurous challenges for all our children. It made the day truly unforgettable.

As we step into June, we carry with us the joy, energy, and bright memories that May has given us — ready for more moments to grow, play, and smile together.

# Happy Mother's day

All the moms had their special day in May, and all the children, with all their hearts, tried in April to create the most beautiful gift to make their mom happy. But there was also singing and reciting. It was truly touching, so how did it all turn out?

# The inline skating camp

Inline skating – a real challenge for some, but for our kids, under the guidance of experienced instructors, it was mostly fun and full of laughter. Even though there were falls in every direction and on every part of the body , no one gave up, and the skating continued. Not even the rain could stop us. By the end of the week, all the kids were proud of themselves, just like we were proud of them.

# The first swimming lesson

We are constantly progressing, developing, and improving children in every way. Right now, we are trying to teach children how to swim - at the very least, preparing them for swimming and introducing them to safe behavior in the water. All the children had been excited the whole week and talking about it. Finally, the moment arrived! Maybe some of them felt a little nervous, but as soon as they saw the pool and put on their safety gear, they were thrilled and eager to jump in. Under the experienced guidance of the instructors, they truly enjoyed themselves until the very end. Now, we just wait for the next week. Happy swimming!

# "Neri's Birthday – Fun with Totoro"

We all enjoyed a wonderful birthday day with Neri. It was truly a fun morning full of Totoro-themed activities. A huge thank you to Neri, Daddy Mr. Matt, and Mommy, we had such a great time!
