NEWSLETTER
OCTOBER 2025

Dear Parents and Children,

Welcome to our October newsletter! The air is getting crisp, the leaves are turning beautiful shades of red and gold, and we are delighted to share all the fun we've had this month.

At the beginning of October, we were invited by Mr. Otto to visit his laboratory, where the children enjoyed conducting fascinating experiments. Our little scientists looked absolutely adorable!

We also celebrated our October Birthday Star — Miki from Puffy Clouds! Preschoolers had a wonderful time singing, laughing, and celebrating Miki's special day together.

Next, we experienced "A Taste of Autumn" through our apple juicing activity. The children were excited to see the entire process of making fresh apple juice from start to finish — and of course, the best part was tasting the delicious homemade juice! Our talented chef, Tomáš Neuvirt, also baked scrumptious apple strudel and apple marble cake. The delightful aroma of apples and cinnamon filled our garden that day.

In addition, we had a wonderful and informative session on dental hygiene! The children truly enjoyed learning how to keep their smiles bright and healthy.

Lastly, we are happy to share that our Zvídalek and PORGino clubs for Puffy Clouds children officially started in October. We're looking forward to an exciting year of creativity and learning ahead!

Hocus pokus experiments with Ota

On Wednesday, October 15, the children enjoyed an amazing and funny morning full of experiments with Mr. Ota in the school's science lab. There was laughter all around, mixed with wide eyes of surprise and excitement! Mr. Ota showed the magic of science in such a fun way that everyone was completely fascinated. We all had a wonderful time, and the children are already looking forward to the next round of science magic with him. Thank you, Mr. Ota - you're truly our wizard of experiments!🧪✨

Zvídálek

On Thursday, October 9, we happily started our preschool club called "Zvídálek". The club focuses on nurturing children's curiosity and expanding their horizons through fun experiments, games, and discoveries. It takes place every other Thursday from 2:30 to 3:15 p.m., and will be led by Ms Renata, alterning with Ms Eva. Each session brings plenty of exciting activities, laughter, and learning. During our first meeting, we explored the autumn theme "Autumn Rain"- the children observed, experimented, and learned how rain is formed. Duringe the second meeting "Science Laboratory with Balloons"- the children focused on air and had the opportunity to verify that air is really everywhere around us. Every child were full of enthusiasm and questions, all with great excitement. Now they are already looking forward to the next Zvídálek adventure!

Dental hygiene

The children enjoyed an interesting and educational morning. On Thursday, October 23, 2025 we had a special visit from dental hygienist Mrs. Petra, who taught the children what dental hygiene means, why it's important to brush their teeth properly, and how to take good care of their mouths to keep their teeth strong and healthy. Together, we practiced how to brush teeth the right way. At the end, Ms Natálie surprised everyone with a small gift she had prepared. It was a nice and informative morning! 😄🪥

Porgíno

On October 7, 2025, our cheerful children's club "PORGino" started again. It helps our little preschoolers get ready for school in a fun and playful way. The children explore, create, and discover while naturally developing their knowledge and skills. The club also helps them get familiar with the school environment and meet the teachers – so when the big day comes. The club takes place every Tuesday from 3:00 to 3:45 p.m, and we're excited to see what fun adventures await us this year!

Apple Juicing

A beautiful sunny autumn afternoon together with You we enjoyd on Tuesday, October 21, in our garden during our Apple juicing. It was a lovely chance to meet again, chat, and soak up the cozy autumn atmosphere. Everyone got to taste delicious fresh apple juice, homemade apple strudel, and tasty apple cake. And of course the children were excited to see the entire process of making fresh apple juice from start to finish, happily played and filled the garden with laughter and joy. It was a wonderful afternoon full of smiles, treats, and that warm autumn feeling we all love! Thank You for coming and special thanks to the chef Tomáš Neuvirt for delicius apple juice and all the goodies.🍎☀️

HAPPY BIRTHDAY

Little Tigers
