NEWSLETTER
JANURY 2026

Dear Parents and Children,

January represents a fresh start, offering 12 new chapters to fill with new goals, hopes and possibilities. It is known as “the beginning of anything you want“. In January, we´ve had a wonderful start to the new year! From enjoying snowy adventures outside to celebrating our birthdays. January Birthdays Stars were Kate, Anežka, Samík and Verunka. A huge thank to Anežka´s parents for organizing a beautiful magic show as a birthday gift and we are so glad to be part of it. This month,we also hosted a successful Open Day and were delighted to welcome new families into our community.

We look forward to more adventures in February.

Open day

On Thursday, January 22nd, we held our Open Day at kindergarten, and we were delighted by the wonderful turnout. At times, the classrooms were filled to the brim with happy visitors and lively energy. We are pleased to say that both parents and our future little friends were truly excited - even though we can't share their photos this time. We are already looking forward to welcoming many new friends in September. See you soon in the new school year! 😊

Birthday magic show

On Monday, January 26th, the children enjoyed a lovely and cheerful morning filled with a touch of magic. Anežka and her mum invited a magician to kindergarten, and together we shared a fun magic show full of smiles and little surprises. The children watched with excitement and enjoyed the special celebration. It was a nice way to brighten up the day and celebrate Anežka's birthday together. A big thank you to Anežka and her parents — and once again, happy birthday, Anežka! ✨

Zvídálek

We are also happily continuing our popular preschool club Zvídálek! The children can once again look forward to fun-filled afternoons that playfully broaden their horizons and spark their curiosity. There will be experiments, games, discoveries, and lots of interesting facts about the world around us. What exactly we will explore together remains a little secret for now. But one thing is certain - all our little explorers (and we too!) have plenty to look forward to! 😊

Pohybovky

Always on the move - and we truly love it! Some children approach activities calmly, while our biggest “little athletes” take every obstacle as an exciting challenge and jump right in with great enthusiasm. Sometimes there’s a small bump along the way, but nothing ever stops the fun! Laughter, running, and overcoming challenges are all part of our active lesson. And the good news is - we’re continuing our regular PE sessions and movement games in the gym! 😊

SONGS & RHYMES
