

Dear Parents and Children,

April was a month full of energy and new adventures! We started the month by celebrating the Easter holiday. We went out hunting for eggs hidden by the Easter bunny and got sweet rewards for our efforts.

April kicked off our swimming course at the Brušperk swimming pool and our little swimmers are making a splash this April.

Furthermore, Mr. Otto our Science teacher arranged a nice and educational theatrical play “Větroň“.

April Birthday Stars are Linda, Arnie, Emma M. and Charlotte. Wishing them a year full of smiles, fun and new things to learn.

To wrap up the month, our Little Fish and Little Tigers classes prepared a beautiful Spring Performance for their parents. We are so proud of their brave achievement. Thank you to everyone who came to support them.

Easter egg hunt

As every year, we once again enjoyed the pre-Easter season with the children, filled with both traditional Czech customs and our now well-loved Easter egg hunt. This year, it took place on Wednesday, April 1st, and it was just as fun as ever. The children searched with great enthusiasm, running around the garden and carefully looking into every corner. And of course - they managed to find all the hidden eggs! And not only that… there were also some sweet surprises waiting for them. It was a joyful morning full of laughter, excitement, and springtime atmosphere, which we all truly enjoyed.

Science fairy tale the Sailboat

On Wednesday, April 8th, the children had a fantastic time as they enjoyed a show called "**Větróň"**. It was a kind of scientific fairy tale that not only entertained them but also taught them about wind, air, and other physical phenomena in a playful way. The show was also musically enriched, and the children got to join in actively, which made it even more fun for them. It was truly a joyful experience, full of laughter and discovery.

Swimming lessons

Starting on Thursday, April 16th, our regular swimming lessons at the Brušperk swimming pool began once again after a year. The lessons will now take place every Thursday, and quite magically, all the children have suddenly become experts in the days of the week . They now know exactly when Thursday is ☺ or at least they make sure to keep track of it and often ask when it will finally be Thursday again! All our little swimmers are doing a fantastic job, and they truly deserve big praise. Even the instructors are full of compliments for them .

Class performance for Little Fish and Little Tigers Class

On Wednesday, April 29th in the afternoon, our children once again stole the show as they performed a special recital for their parents. The Little Tiger and Little Fish classes took center stage in our kindergarten garden, and it was nothing short of magical. The applause was thunderous as these little stars shone in all their glory. Even when they started singing at one point a bit early, they handled it brilliantly, like pros, bringing laughter and surprise to everyone. But the real magic happened when, after the performance, they handed out flowers to their moms and dads - at that moment, everyone was touched, and a few happy tears even started to flow. It was a truly heartwarming and unforgettable afternoon! **Bravo our Stars!**
